Profile

I'm a passionate and versatile developer with intermediate proficiency in Python, JavaScript, C++, Django, ReactJS, and NodeJS. With a creative mindset and strong technical foundation, I have successfully completed freelance projects, built end-to-end applications, and explored multimedia storytelling through short films. I'm fluent in Tamil, Telugu, Hindi, and English, and conversational in Malayalam and Kannada.

Technical Skills

Languages: Python, JavaScript, C++

Frameworks/Libraries: Django, ReactJS, NodeJS

Tools: Git, VS Code, Pygame, Bootstrap, Photoshop, Premiere Pro, Blender

Concepts: Full Stack Development, CLI Tools, Game Development, REST APIs

Projects

Command-Line Operating System (CLI-OS)

A simulated command-line interface that mimics OS-level interactions.

- Built using Python

- Includes commands for virtual CPU/GPU settings, spinners, animations, and persistent state

- Focus on UX with fake delays and sandboxed simulation

Typing Speed Game - Pygame

A fun typing challenge game with score display and timer.

- Developed using Pygame

- Features real-time speed calculation and animated feedback

- Includes end-screen score summary and restart options

Django Portfolio Website

A personal web portfolio developed using Django and Bootstrap.

- Displays resume, projects, and contact form

- Responsive and clean UI design with templating

- Integrated static and dynamic content effectively

Education

B.Tech (Ongoing) - S-Vyasa Deemed to be University (2024 - Present)

Schooling - Sri Seshaas International Public School (Completed in 2024)

Freelance Experience

Successfully completed 3 freelance projects delivering:

- Web applications for local clients

- Backend integration and deployment

- Cross-platform testing and responsive design

Languages

Fluent: Tamil, Telugu, Hindi, English

Conversational: Malayalam

Basic: Kannada

Other Interests

- Short film creation and script writing

- Video editing and motion graphics

- Exploring new technologies through side projects
