⬚ About Me

I'm a self-taught software enthusiast and web developer who loves building beautiful, functional digital experiences. Blending creativity with logic, I work on everything from modern web apps to personal photography portfolios. Currently studying Computer Engineering and lifting heavy in the gym — because building strength isn't just for code.

⬚ Technical Skills

- **Languages:** HTML, CSS, JavaScript, Python
- **Frameworks & Tools:** Flask, AJAX, Bootstrap
- **Cloud & DevOps:** GitHub, Vercel, Netlify, AWS (EC2, S3 basics)
- **Other:** UI/UX Design, Blogging, Debugging under pressure

⬚ Projects

Photography Portfolio Website
HTML, CSS, JavaScript, Blog Engine

- Built a clean, responsive personal portfolio with Pinterest-inspired design
- Integrated blog system to document creative and technical experiences

Apartment Maintenance App (Flask SPA)
Google Auth, Admin Panel, Maintenance Calculator

- Flask-based single-page app with AJAX functionality
- Modern dark-themed UI inspired by Spotify
- Admin & user views, reminders, and multi-module calculators

BMI & Date Calculator Add-ons
Tkinter GUI Tools

- Modular Python tools for fitness and utility
- Built with clean UI and added to the overall desktop calculator suite

⬚ Education

Bachelor's in Computer Engineering
Fake University, Bangalore
Expected Graduation: 2026

⬚ Interests

- Street & Portrait Photography
- Strength Training & Gym
- Clean UI/UX and Web Design
- Blogging about Code & Growth
- Learning by Building

⬚ Let's Connect

Whether it's code, collaboration, or a shared love for lifting — I'm always open to learning and building with others. Let's connect!
